

FlexMaritime CrewTV+

Curated TV streaming service for commercial maritime crews

Turn downtime into together time.

For those working in isolated environments for extended periods, staying informed and entertained is essential to maintaining morale.

26%

seafarers reported feeling lonely or isolated most or all of the time while at sea.

FlexMaritime CrewTV+ plays a crucial role in enhancing crew well-being by providing access to live TV, keeping crew members connected to the world while at sea.

With FlexMaritime CrewTV+, ship crews have access to a variety of programming streamed live to TVs in vessel dining and recreation areas.

Live entertainment

FlexMaritime CrewTV+ allows crew members to share in major news or entertainment moments that have broad appeal or cultural significance such as:

- **News Events:** Presidential elections,

royal weddings or funerals, major announcements (e.g., rocket launches, peace treaties), breaking news (e.g., natural disasters or major political events).

- **Entertainment and Cultural Events:** The Super Bowl, the FIFA World Cup, the Olympics, season finales, and even livestream concerts.

Company broadcast

Capture crews' attention by broadcasting the latest company news on screen with safety messages, company updates, circulars, operational posters, protocol changes, or general announcements.

Seamless streaming

Optimized user experience for consistent viewing even on low-bandwidth connections (as low as 650 kbps)

Tailored content

Specially curated live channels for international crews

Crew camaraderie

Unite your crew with shared entertainment that supports well-being and combats isolation at sea

Real-time communications

Keep your crew informed with real-time messages displayed directly on shared TVs — from safety alerts to company updates

Easy deployment

Minimal requirements and easy to deploy on board. Offered exclusively through SES solutions partners

Maximizing existing infrastructure

FlexMaritime CrewTV+ integrates effortlessly with existing onboard systems, eliminating the need for additional hardware or software. It runs smoothly on standard web browsers and smart TVs already in use, streaming high-quality content with minimal bandwidth allowing ship operators to significantly enhance crew welfare without incurring extra infrastructure costs.

Offering diverse programming

Baseline subscription includes a

selection of curated channels catering to a variety of interests, from live news and sports to movies and international content.

Offered exclusively through SES's solutions partners

Offered through our carefully selected solutions partners, SES offers a suite of advanced connectivity solutions for the commercial maritime industry. Contact your service provider or SES sales representative to ask about our suite of FlexMaritime solutions to meet your unique maritime communications needs.
