

FlexMaritime CrewTV+

Curated TV streaming service for
commercial maritime crews

Turn downtime into together time.

For those working in
isolated environments
for extended periods,
staying informed and
entertained is essential
to maintaining morale.

26%

seafarers reported feeling lonely
or isolated most or all of the time
while at sea.

Source: Seafarers' Happiness Index

FlexMaritime CrewTV+ is offered
as a complementary service to SES
FlexMaritime, leveraging the core
connectivity foundation to deliver
curated live TV content that enhances
crew wellbeing at sea.

With FlexMaritime CrewTV+, ship
crews have access to a variety of live
programming that can be streamed to
TVs in dining and recreation areas.

Live entertainment

FlexMaritime CrewTV+ allows crew
members to share in major news or
entertainment moments that have

broad appeal or cultural significance
such as:

- **News Events:** Elections, breaking
news, global announcements, and
cultural moments.
- **Entertainment and Cultural Events:**
Major sporting events, season
finales, and live concerts.

Company broadcast

Capture crews' attention by
broadcasting the latest company
news on screen with safety messages,
company updates, circulars,
operational posters, protocol changes,
or general announcements.

Seamless streaming

Optimized user experience for consistent viewing even on low-bandwidth connections (as low as 650 kbps)

Tailored content & crew camaraderie

With curated, internationally relevant programming, crews can come together around major news, sports, and entertainment, helping reduce feelings of isolation at sea

Real-time communications

Keep your crew informed with real-time messages displayed directly on shared TVs — from safety alerts to company updates

Simple deployment

Minimal requirements and easy to deploy on board. Offered exclusively through SES solutions partners

FlexMaritime CrewTV+ delivers a consistent, shared viewing experience onboard by streaming live TV optimized for maritime environments, even on low-bandwidth connections.

With curated, internationally relevant content, it helps bring crews together around major news, sports, and entertainment. Content is tailored to the needs of multinational crews, enabling them to stay connected to the world beyond the vessel. This service supports crew morale, camaraderie, and reduces feelings of isolation at sea. The focus on inclusive, relevant programming enables operators to enhance crew satisfaction and retention without adding complexity to onboard connectivity.

The solution also enables operators to communicate directly with crews through on-screen messages, from safety alerts to company updates, and integrates easily with existing onboard systems, allowing for simple deployment without additional hardware or infrastructure.

Technology and performance

- **Optimized streaming:** Consistent viewing experience even on low bandwidth (as low as 650 kbps)
- **Maximizes existing infrastructure:** No need for additional hardware or software
- **Seamless integration:** Works with current onboard connectivity and display systems

Offered exclusively through SES's solutions partners

Offered through our carefully selected solutions partners, SES offers a suite of advanced connectivity solutions for the commercial maritime industry. Contact your service provider or SES sales representative to ask about our suite of FlexMaritime solutions to meet your unique maritime communications needs.
